RESEARCH AND CLINICAL EXPERIENCE

Learning Sciences Laboratory **Aug 2024 – Present**
National University of Singapore
PhD Student (Full-Time)
Supervisor: Steven C. Pan, Ph.D.

- Principal Investigator for a study on the impact of learning strategies on test anxiety in the lab and classroom.
- Led data quality assurance, including managing large Qualtrics datasets, developing tracking systems, and evaluating participant accuracy and engagement to ensure data integrity.
- Conducted multiple mediation and multilevel modeling analyses in R to support advanced statistical research.
- Replicated SPSS analyses in R for upcoming publications, enhancing cross-platform reproducibility.
- Facilitated weekly lab meetings to coordinate research activities and support team development.
- Mentored lab members in standardized data collection protocols.

Child Development Lab **Oct 2025 – Dec 2025**
National University of Singapore
Level 1 Experimenter (Volunteer)
Supervisor: Ding Xiao Pan, Ph.D.

- Administered cognitive assessments to children aged 2–6 and communicated results, including scores and percentiles, to parents.

Northern California Institute of Research and Education **Jul 2023 – Jul 2024**
San Francisco Veterans Affairs Medical Center
Staff Research Associate II (Full-Time)
Supervisor: Linda Chao, Ph.D.

Pilot Test of Apnea and Insomnia Relief for Veterans With Gulf War Illness (GWAIR)
NCT05137743, University of California, San Francisco

- Coordinated enrollment of Gulf War veterans into online sleep therapy, developing an IRB-approved recruitment flier to boost recruitment, now distributed nationwide.
- Spearheaded a poster presentation on study protocol at the 2024 UCSF Research Health Symposium
- Conducted eligibility screenings via phone with Gulf War veterans, evaluating trial suitability.
- Facilitated seamless coordination of services between research participants and both internal and external providers, ensuring their needs were met efficiently.
- Managed database trackers, subject information, and payment forms for precise record-keeping.
- Compiled weekly Sleep Diaries, transforming raw data into actionable insights for therapy sessions.
- Ensured data accuracy through quality control checks of clinical interview tele-forms.
- Mentored colleague to take over study coordination.

Multi-domain Online Therapeutic Investigation Of Neurocognition (MOTION)
NCT05217849, University of California, San Francisco

- Conducted neuropsychological assessments, including memory and gait analysis, for participants with mild cognitive impairment.
- Level 1 MR Certified, completed Code Blue mock drills.

Investigating the Incidence of Mild Cognitive Impairment in Gulf War Veterans (21-34070)
University of California, San Francisco

- Developed SOPs for and managed the safe handling and storage of biosafety blood and plasma samples in an on-site ultra-low temperature (ULT) freezer for future analysis.

Investigating Brain Activity and Connectivity Involved in Hand Movement in Chronic Stroke
American Heart Association (23CDA1054207)
Supervisor: Haleh Karbasforoushan, Ph.D.

- Created preliminary eligibility scripts to screen stroke and healthy participants.

University of California, Berkeley **Sep 2021 – Jun 2023**
Golden Bear Sleep and Mood Research Clinic: Sleep and Habit Formation
Research Assistant and Clinical Assessor (Part-Time)
Supervisor: Allison Harvey, Ph.D.

Implementing and Sustaining a Transdiagnostic Sleep and Circadian Treatment to Improve Severe Mental Illness Outcomes in Community Mental Health
NCT04154631, National Institute of Child Health and Human Development

- Administer dozens of clinical phone screens and pre- and post-assessments to participants with a serious mental illness (SMI), determining eligibility and conducting Suicidal Ideation protocols as needed.
- Pull weekly data logs from Qualtrics surveys, quantifying and summarizing information from the therapists to allow clinic coordinators to interpret data better.

Maintaining behavior change: An evaluation of a habit-based sleep health intervention
R01HD071065, National Institute of Child Health and Human Development

- Administer dozens of clinical assessments to young adults who have sleep or circadian problems and are at risk in one of five health domains (cognitive, emotional, physical, social, or behavioral).
- Attend weekly supervision with head therapists with expertise in sleep circadian disorders and habit formation
- Mentor other assessors by onboarding them for clinical assessments, providing feedback on assessment administration, and protocol.

Maintaining behavior change: A 6-year follow-up of adolescent 'night-owls' following the Transdiagnostic Sleep and Circadian Intervention or Psychoeducation
R01HD071065, National Institute of Child Health and Human Development

- Perform exploratory data analysis by developing an Excel formula to calculate sleep time midpoint across the 24h time zone - the formula is now used lab-wide.
- Execute data collection by scheduling 1000+ ecological momentary assessments (EMA) and sleep diaries for sleep therapy participants, recording the data for sleep therapists.
- Support recruitment efforts by creating eye-catching electronic posters using Canva.

Improving Outcome for Severe Mental Illness by Enhancing Memory for Treatment: 12-month outcomes and opportunities for improved efficacy
R01MH1086, National Institute of Mental Health

- Independently coded 150 cognitive therapy (CT) sessions, allowing lab supervisors to analyze which strategies are most commonly used by CBT therapists.
- Assisted the head researcher in refining code definitions through weekly meetings.

University of California, Berkeley **Aug 2022 - May 2023**
Department Of Psychology: Research and Infant Development
Professor Assistant (Part-Time)
Supervisor: Joseph J Campos, Ph.D.

- Support Professor Campos' work on a collaborative grant application with Hong Kong on language delay as early indicators for children with autism; the grant is being funded from June 2023.
- Compile a university-grade slide deck for Professor Campos' guest lecture on epigenesis, locomotion, and language acquisition, conducting literature reviews and discussing in-press papers.
- Arranged a recommendation letter coordination for the Ainsworth Award of Division 7 in APA.
- Correspond on behalf of Professor Campos via email, taking verbal dictations.

A is for Apple (Autism Learning Partners) **Sep 2020 – Mar 2021**
Applied Behavioral Analysis Therapy
Registered Behavioral Technician (Part-Time)
Supervisor: Brian Jenkins BCBA, Jessica Diaz

- Provided 1:1 Applied Behavioral Analysis therapy for 15 hours/week to a six-year-old client with autism.
- Administered social and behavioral targets set by clinical supervisor and Board Certified Behavior Analyst (BCBA), improving the child's focus on homework as well as verbal communication.
